

This book examines behavioral adaptations of tropical birds in timing of breeding, life history traits, mating systems and parental care, territoriality, communication, and biotic interactions, and emphasizes the many gaps in our knowledge of tropical birds. We urge students and researchers in temperate and tropical regions alike to realize the potential they have for improving our knowledge of avian adaptations far beyond what is currently accepted as gospel. Time is running out.

How To Dance, The Drowned Life, Knut: La historia del osito polar que cautivo al mundo entero: (Spanish language edition of Knut: The Story of a Little Polar Bear That Captivated the World) (Spanish Edition), Slatters Fundamentals of Veterinary Ophthalmology, 4e, Build a Clancy: A Step-By-Step Guide to Your First Boat, Biology of Aging: Disciplinary Approaches to Aging,
