

Is love stronger than magic? Or will breaking an unbreakable bond destroy them both? Jak enjoys the female human population of Seattle as much as any wolf, but his heart belongs to a female shifter who's already mated. Worse, she's the mate of his alpha's brother. But she was captured and mated against her will and watching her get hurt is slowly tearing Jak apart. Arianna was stolen from her pack when she was only twenty, and her alpha has a dark side—he takes full advantage of her unbreakable bond to him. Her nights belong to him, but her days are free to explore other things—including feelings for a wolf she can never have. Jax wants to break an unbreakable bond, but freeing Arianna may cost him everything—but it just might be worth it.
