

Yes that's me the 81yr old fool trying to get to grips with technology! Whatever happened to pencil and paper? Unfortunately Amazon wouldn't let me submit this Kindle book on a piece of paper so I have had to take the bull by the horn and learn something new "if I can crack it then anybody can! I have been retired for nearly 16yrs now but worked as a GP for 39yrs and enjoyed every single minute of it! I travelled a lot at the beginning of my career mainly around Ireland and the UK where I worked in several hospitals and as a locum at many practices. I saw some things I can tell you but it was nice to help and it gave me a great sense of achievement knowing that people from all walks of life trusted me and my judgement when it came to their well-being. I eventually settled in rural Ireland close to where I was born, met my wife Annie, and had 3 beautiful children. Sadly Annie passed away nearly 3yrs ago and for a while I was lost, I didn't know what to do with myself and to some degree pushed my family away. Fortunately for me I have a very stubborn 24yr old grandson who refused to be pushed away and came to pester me every single day for 7 months, it was him who persuaded me to write books for kindle and I must say I thoroughly enjoy it, and I hope you do too.
