

Michael Wolff has come up with a practical solution to a core problem facing humanity - namely, separation. The converging crises that humanity now faces all stem from the belief that we are separate - separate from each other, separate from the planet, separate from the Universal Life Force. This book is an easy-to-implement blueprint on how to heal yourself and then to trigger a quantum shift in global consciousness. Reading this book you will begin to understand how we have all become disconnected and how this disconnection affects our life - both positively and negatively. Michael Wolff shows how we are born connected, but as a result of early conditioning, most of us have become chronically disconnected. We are then driven by fear and anxiety and lose our sense of feeling truly happy and fulfilled. He shows us how, in disconnection, our energy gets blocked and how this can result in self-limitation, failed relationships, depression, illness, and difficulties in one or more areas of our life. Our first major breakthrough comes from the discovery that this blocked energy is the primal cause of most of our difficulties. The next breakthrough is the understanding that becoming fully connected does not take a life-time of mystical practice, but can literally be achieved in minutes. The final major breakthrough comes from discovering that once fully connected, it is really easy to clear the blocks that are holding us in disconnection. It is simply a matter of surrendering and letting go - to fully experience FREEDOM WITHIN. Once our blocks are cleared, the book then offers some easy practices to enable us to integrate through active awareness. This entails adjusting - moment by moment - from feelings of resistance to being in harmony and in the flow. While this may represent a paradigm shift in self-healing, the book addresses the biggest need of our time: the healing of humanity.
