

As Superman, Batman and Wonder Woman continue their meeting in the Batcave to determine who will make up the new Justice League, several other heroes are investigating different leads that seem to be related to the theft to the Red Tornado's android body from Dr. Magnus' lab. Vixen finds herself confronted by The Bomb Squad at a bar in Hub City while she was trying to look up The Question. Black Lightning, at the same time, is investigating super-villains who are going missing. Black Canary, Hal Jordan and Arsenal are tracking Red Tornado's android body to a lab in the Rocky Mountains that was once used by T.O. Morrow. The League is re-building itself, but can it survive if its three key members don't completely trust one another? As Batman steps aside to talk to Commissioner Gordon, Superman and Wonder Woman take a quick moment to vote whether or not Batman will be part of the League.
