

Why You Should Read This Book Manifestation is a topic that everyone is fascinated with -whether they know it or not. What you manifest refers to what you create in your life on a daily basis. Are you satisfied with the circumstances of your life? Another way to ask this question is: are you satisfied with what you have manifested in your life so far? This includes areas such as: • Financial -Your career, money you have in the bank, investments, savings, etc. • Relationships -Whether you are married or single. • Health and wellbeing. • Spiritual -Do you feel that something is missing? The art of manifestation is learning how to gain control over what you create in your life. In order to do this you must first accept the reality -or at least the possibility- that you can in fact control the manifestation process. Many people go through life feeling as though they were the victims of fate. They may not call it "fate" -some blame their circumstances on luck, environment or genetics. These and other factors do play an important role in your life. However, what some of the worlds greatest thinkers and spiritual masters have discovered is that the world we live in is actually created by our thoughts and emotions! You may be familiar with ideas such as the Law of Attraction, visualization or affirmations. You may have even read books or attended seminars on such topics. But its not enough to simply be aware of these principles or even to do a few exercises now and then. To benefit from the principles of manifestation, you must thoroughly understand them -and then put them into practice every day! This book will show you how to do it with ease.
