

This software and workbook combo teaches and reinforces the math concepts that third graders need to practice the most. The workbook offers interesting activities and colorful illustrations as it introduces addition, subtraction, rounding, place value, multiplication, division, and more. The software enhances the workbook experience by adding audio guidance, instant grading, progress tracking, and ample positive reinforcement. The program randomizes problems with each use, providing endless activities. Plus, engaging games offer an important break between exercises. Colorful graphics, silly sound effects, and funny animations make learning fun. Together, the CD-ROM and workbook provide two great ways to learn!
