

Have we ever misjudged a situation? Looked at life one way only to realize itâ€™s something else entirely? Christopher â€œOutlawâ€• Caldwell is at a crossroads. He worships his old lady, Megan. After almost losing her, heâ€™s realizing marriage is harder than he thought, especially when heâ€™s the president of one of the most notorious MCs around. Megan Caldwell has been immersed in grief over her lost son, blaming herself for his death. She wants another baby and she wants to be the old lady her husband needs her to be. Reality has a way of changing perceptions. Both Megan and Christopher will have to find answers to some hard questions. Most important one? Where do they go from here? Warning: This story contains a little of Kendall Millerâ€™s backstory and a present-day decision on her part. It isnâ€™t for the faint of heart and isnâ€™t a hearts-and-roses type of romance. It has a little intensity, a smidgeon of fighting, a lot of loving, and approximately 1360 â€˜â€™ words or variations thereof.
