

The Coptic Gnostic Library continues where the Dead Sea Scrolls left off. Our main sources of information for the Gnostic religion are the so-called Nag Hammadi codices, written in Coptic. These were unearthed in 1945 near the town of Nag Hammadi in Upper Egypt. The texts literally begin where the Dead Sea Scrolls end. Their discovery is considered equally significant as the Dead Sea Scrolls themselves, bringing to light a long-hidden wealth of information and insights into early Judaism and the roots of Christianity. Furthermore, these writings clearly show that the Gnostic religion was not only a force that interacted with early Christianity and Judaism in their formative periods, but also a significant religious movement in its own right. The Coptic Gnostic Library contains all the texts of the Nag Hammadi codices, both in the original Coptic and in translation. Each text has its own introduction, and full indexes are provided. The Coptic Gnostic Library is the starting point for all research into ancient Gnosticism. It is the result of decades of dedicated research by the most distinguished international scholars in this field.
