

The Preppers Apocalypse Survival Guide book series by Steve Rayder is quickly growing in popularity in the prepping community. With thousands of copies being read by preppers around the world within months of the release of the very first book. This latest instalment in the series covers the topic of apocalypse scavenging in a very different way with an interesting approach. Steve has written the book assuming that most of the obvious survival items such as food and medicine would have already been taken, which is the most likely scenario. If you can find food and medicine that's great, if not, you need to read this book. There is also loads of great tips on everyday items that have a multitude of survival uses that you probably would have never even considered. After reading this book, I can confidently say that most of you will probably be keeping a few new items in your bug out bag.
