

SWAT sniper Trey MacGilvary likes his women wild and hot! Trey's adventurous streak once served him wrong, now it makes him dangerous to criminals and devastating to female hearts. Englishwoman Olivia Scott lives a quiet life as a librarian with nothing more exciting to cogitate on than which video to rent on a Friday night and which pie to create for the local bake off. When Trey rescues her from a disturbed man's brutal attack, and she's left injured and vulnerable, he vows she'll be under his protection from that point forward. The enthusiasm and unpredictability of his life stirs erotic passions within her that threaten to reinvent the woman she always thought she was. Trey finds the plucky, bookish woman intriguing, but believes he isn't interested in long-term commitment. His attraction to her boils sky high and he battles with emerging feelings he never thought he'd have again for a woman. After all, she's returning to England in six months. There's no way they can forge a lasting relationship, even if they wanted to. As a vengeful criminal resurfaces with revenge in mind and promises to harm everyone he loves, Trey's skills as a sniper, a brother and a lover are tested. As danger closes around her, Olivia must find a core of strength she never knew she had, and capture a red hot passion she never hoped to find.
