

For five hundred years a mad computer scientist who called himself Satan ruled the nights of the planet Styx, each sundown unleashing hordes of cyborg creatures – werewolves, vampires, dragons, and worse – to terrorize what had once been the idyllic Victorian villages of an interstellar pleasure world. Then Satan was killed by Geoffrey Turner and young Oliver Dolan – and things grew worse, for Satans creations, left to their own devices, quickly began to terrorize the days as well as the nights. It was left to Oliver Dolan to pacify the creatures and defeat Satans last, most insidious weapon – before all men were turned into Zombies.
